

# For a better life together, let's respect the environment in Moliets et Maa

## Charter for Eco-responsible Citizens

- We actively participate in keeping our village clean:
  - We don't leave our rubbish anywhere apart from in dustbins
  - We clean up after our pets
  - We take part in keeping the roads, the beach and the forest clean and we respect public buildings and public places
- We reduce our waste:
  - By avoiding buying disposable products
  - By preferring to drink tap water
  - By composting organic waste
- We sort and recycle our waste:
  - Into bags for household waste
  - To the recycling point for: glass, paper, cardboard, plastic, batteries, cans
  - To the recycling centre for bulky household waste for: electrical appliances, furniture, garden waste, rubble, metal
- We save paper:
  - By only printing if it is really necessary
  - By using recycled paper
- We are respectful of our neighbours:
  - By respecting the set timetables for noise pollution
  - By being vigilant with regard to visual disturbance and strong smells
  - By informing our neighbours when we are organizing a party.
  -
- We act on a daily basis to reduce our consumption of natural resources and energy (water and electricity).
- We are careful about our food consumption to avoid waste.
- We give priority to clean modes of transport: cycling, bus, car-sharing whenever it is possible.
